# New Red Penalty Area on Course

After the last Golf committee meeting, it was voted to put into play a new red penalty area along the left-hand side of the tree line of the 9th and 18th Holes. This has been clearly marked with Red Stakes. This will hopefully help increase the speed of play and avoid requiring players to play a provisional from the tee.

Players need to take note of all Red penalty areas and the point at which their ball crosses a penalty area.

Please see the link below for an explanation of how the red penalty areas work in the game.
